I am a hardworking and motivated **Web and Mobile App Developer**, previously specialising in Android, I have a passion to explore new and exciting areas of software development. I graduated from the University of Lincoln in 2018, with a **First Class Games Computing degree**. I have always prided myself on my **time management skills**, whilst at university I balanced a part time job with my own personal projects and the demands of my degree.

Education

University of Lincoln (2015-2018)
BSc Games Computing **(First Class)**

Key Skills gained:
- Gained a good level of knowledge with **HTML, CSS and Javascript**, in Web and Cross-platform Modules, in addition to using **jQuery & jQuery Mobile.**
- Experience of Android app development, in **Java**, within Android Studio, libraries such as Retrofit and Glide used.
- High level of competence in **C# and C++** programming languages and ability to put them into practice using object-oriented structures
- Understanding of the **Unity game engine and game design skills**
- Mathematics skills focussed on useful areas for computer programming, as well as statistical analysis
- Experience with efficient **problem solving** gained throughout all areas of the course

Bluecoat Academy (2008-2015)
A-Levels:
- Computing – C
- History – C
- Maths – D
- Physics (AS Level) – C

GCSE's:
9 GCSE's grading from A* to C including Maths (A), English (B) and Triple Science award (A*, A, A)

Experience

Roller Agency – Nottingham (July 2018-April 2019)
Junior Android Developer

Worked on projects of a variety of sizes, working closely with clients through their agile development approach. Experienced building android apps written in both **Java and Kotlin, using MVVM architecture, RxJava2, Realm, Retrofit and Firestore integration**.

During my time at Roller Agency I vastly improved not only my android development skills, but exposure to all areas of the projects has greatly strengthened my knowledge of everything from project management methods to transferable programming experience.

Personal Development – (June 2017 - Ongoing)
Independent Projects/Freelance

I have created two static websites for local businesses on a freelance basis, used as a way to explore web development and add to my knowledge of **HTML, CSS/SASS and Javascript**. Experienced creating responsive, mobile friendly sites using the **bootstrap framework** and integrating **Google Analytics**. More information, about the projects, can be found on my portfolio website.

Throughout my time at University and beyond, I have always taken time to explore new technologies in with advanced **reactive programming in android** and **XR** being the focus of my independent learning in the past year.

Additional

Morrisons – Ilkeston/Lincoln (December 2014-June 2017)
Sales Assistant/Checkout operator

Throughout my two and a half years at Morrisons I learnt many transferable skills in my various roles. Working part time as both a shop floor sales assistant and later as a checkout operator where a high level of customer service and teamwork was key.

Betterware (2014)
Distributor

Barnardo's - Beeston (2011)
Charity Shop Volunteer

Hobbies
- I have a keen interest in both watching and playing football, being involved in a weekly five-a-side team.
- During my time at the University of Lincoln I was an active member of the table tennis sports society.

- Playing and developing video games is a strong passion of mine, as well as keeping up to date with recent technology to be used within personal projects.
